

All measurements and seat sizes are approximate. You may be between sizes and not fall into a specific size. Please feel free to call if you need assistance. Your riding style along with inseam, weight and height measurements as well as breed of horse and riding discipline need to be considered when selecting the proper saddle size.

If you need a saddle smaller or larger than listed just call and we can custom fit the proper size.

17 inch	185 to 230	5.10 to 6.4	38-46 inches	22-26 inches

All measurements and seat sizes are approximate.

Inseam, weight and height measurements along with riding style, breed of horse and riding discipline are also considered when selecting a saddle size for the rider. **Questions? Call 715-323-1495**

When selecting a girth for your equine: Measure under the belly, elbow to elbow, and add 16 to 18 inches. This will give an approximate size to fit your new saddle to your horse.
